

Directory Update Report  
14 September 2019

I appreciate those who sent updated information for the directory. There are 27 parishes whose information is not up to date.

Since the directory is changing formats to Google, every parish's information requires to be updated. Having the directory in Google will reduce the number of emails received requesting updates. An added bonus to using Google is that everyone with the link is able to see an updated version in "real-time".

Please send updates as soon as there is a change to my address: [mpkcoop@gmail.com](mailto:mpkcoop@gmail.com)

Respectfully submitted by Mary Cooper
